CEEPULSE™ FACTS

Indestructible

Bullet-proof construction for complete reliability in the field.

Easy to Use

Control all settings using the CEEPULSE CONNECT software portal over Bluetooth or RS232 cable. Select from several echo sounder output formats.

10 Hz Ping Rate

CEEPULSE™ offers exceptional accuracy and detail from an entry level "black box" echo sounder.
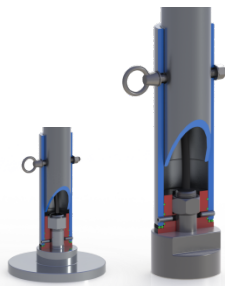

Bluetooth Connectivity

Output to a hand-held data collector or PC using a wireless Bluetooth link.

High Quality Transducers

Professional grade transducers.

Super Bottom Tracking

CEEPULSE™ is designed specifically for superior shallow water results. A powerful modern processor offers big box performance.
